DETAILED ACTION

Allowable Subject Matter

1. Claims 1-42 are allowed.

The following is an examiner's statement of reasons for allowance: the references cited disclose a printed circuit board comprising: a metal sheet, a dielectric film for a capacitor, first and second electrically conductive layers, a resin layer, first and second via for electrical connections, and some other claimed elements. However, they do not disclose or render in combination of the second via for electrical connection to the metal sheet not being provided with the dielectric film for the capacitor, nor with the first and second electrically conductive layers, on the metal sheet in the second via for electrical connection to the metal sheet, the second via for electrical connection extending throughout the resin layer until reaching the metal sheet, the second via for electrical connection including a second electrode of an electrically conductive member deposited therein, the second electrode being electrically insulated from the first electrically conductive layer by an insulating member provided between the second electrode and the first electrically conductive layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cole, Jr. et al., Inagaki et al., Cooray, and Ogawa et al. Disclose related art.
